| Produktbeschreibung      | PtdIns PIP Beads <sup>TM</sup> contain 10 nanomoles of bound PtdIns per mL of beads, enough for several protein binding experiments. Each 1 mL order of PIP Beads includes a small amount of control beads. Larger quantities of <a href="#">Control Beads are also available for ...</a> |
| Anwendungsbeschreibung   | Categories: Biochemical Reagents. Related: Beads, Phosphoinositides, PI. Ship 1 : Shipping Temp. Ship 2: Gel Ice                                                                                                                                                                          |
