| Immunogen                | Recombinant protein (or fragment).This information is considered to be commercially sensitive.                                                                                                                                                                |
| Konjugation              | ABflo 488                                                                                                                                                                                                                                                     |
| Produktbeschreibung      | CD123 is the 70 kDa transmembrane alpha chain of the interleukin-3 (IL-3) receptor. It binds IL-3 with low affinity when alone, however, upon association with CD131 (the common beta chain), the complex binds IL-3 with high affinity. CD123 does not tr... |
