| Applikation              | WB                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | All                                                                                                                                                                                                                                                           |
| Konjugation              | BF350                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Enhanced Blue Fluorescent Protein (EBFP) emits a strong blue fluorescence. EBFP can be used as protein tags to study the sub-cellular localization of proteins and/or their translocation upon stimulation or as markers for transfection in transient and... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1ug/ul                                                                                                                                                                                                                                                        |
| Klon-Bezeichnung         | [7B12]                                                                                                                                                                                                                                                        |

|                        |                                                                                                        |
|------------------------|--------------------------------------------------------------------------------------------------------|
| Puffer                 | Aqueous buffered solution containing 0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol. |
| Quelle                 | Recombinant EBFP protein                                                                               |
| Target-Kategorie       | EBFP                                                                                                   |
| Application Verdünnung | WB(1:300-5000)                                                                                         |
