### Goat Antiserum anti-Bovine IgG (H+L)-unconj., MinX none DNA-SEC-182407

|                                  |                                                         |
|----------------------------------|---------------------------------------------------------|
| Artikelname                      | Goat Antiserum anti-Bovine IgG (H+L)-unconj., MinX none |
| Artikelnummer                    | DNA-SEC-182407                                          |
| Hersteller Artikelnummer         | SEC-182407                                              |
| Alternativnummer                 | DNA-SEC-182407                                          |
| Hersteller                       | dianova                                                 |
| Wirt                             | Goat                                                    |
| Kategorie                        | Antikörper                                              |
| Applikation                      | ELISA,IHC,WB                                            |
| Spezies Reaktivität              | Bovine                                                  |
| Immunogen                        | Bovine IgG whole molecule                               |
| Konjugation                      | Unconjugated                                            |
| Format                           | Antiserum                                               |
| Spezifität                       | IgG (H+L)                                               |
| Minimale Kreuzreaktivität (MinX) | no cross-adsorbtion                                     |
| Klonalität                       | Polyclonal                                              |
| Konzentration                    | 28.5 mg/mL                                              |
| Puffer                           | 0.01 M Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2 |

|                        |                                                                                                                                                                                                                                                        |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reinheit               | This product was prepared from monospecific antiserum by a delipidation and defibrination. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-goat serum, Bovine IgG and Bovine Serum.                                    |
| Formulierung           | Lyophilized                                                                                                                                                                                                                                            |
| Antibody Type          | Secondary Antibody                                                                                                                                                                                                                                     |
| Application Verdünnung | ELISA Dilution: 1:20,000 - 1:100,000, Immunohistochemistry Dilution: 1:1,000 - 1:5,000, Western Blot Dilution: 1:2,000 - 1:10,000                                                                                                                      |
| Anwendungsbeschreibung | Anti-Bovine IgG Secondary Antibodies are designed for Western Blotting, ELISA and Immunohistochemistry. Secondary antibodies can also be used for a variety of other applications such as Assay Development, Flow Cytometry and in situ hybridization. |
