Product Datasheet

PrecipHen Immunoprecipitation Reagent, Agarose, Goat, Polyclonal AVL-P-1010

Artikelname	PrecipHen Immunoprecipitation Reagent, Agarose, Goat, Polyclonal
Artikelnummer	AVL-P-1010
Hersteller Artikelnummer	P-1010
Alternativnummer	AVL-P-1010
Hersteller	Aves Labs
Wirt	Goat
Kategorie	Antikörper
Applikation	IP
Spezies Reaktivität	Gallus
Konjugation	Agarose
Produktbeschreibung	Our PrecipHen is made from goat anti-chicken IgY antibodies covalently attached to agarose beads. It is designed for use with chicken antibodies in immunoprecipitation (IP), chromatin immunoprecipitation (ChIP), and protein purification applications....
Klonalität	Polyclonal
Puffer	Phosphate-buffered saline (PBS) (pH 7.2), sodium azide (0.02%, w/v) (as an anti-microbial agent)
Formulierung	Agarose beads in buffer, binding capacity 1.0 mg of chicken IgY per ml bed volume 1.0 mg of chicken IgY per ml bed volume
Target-Kategorie	Chicken IgY
