| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FACS, IF, IHC-P, WB                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human, Rat and Mouse                                                                                                                                                                                                                                          |
| Immunogen                | Recombinant human protein was used as the immunogen for the Actin Beta antibody.                                                                                                                                                                              |
| Produktbeschreibung      | All eukaryotic cells express Actin, which often constitutes as much as 50% of total cellular protein. Actin filaments can form both stable and labile structures and are crucial components of microvilli and the contractile apparatus of muscle cells. W... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [ACTB/1109]                                                                                                                                                                                                                                                   |
| UniProt                  | <a href="#">P60709</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Protein A/G affinity                                                                                                                                                                                                                                          |

|                        |                                                                                                                               |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                                                       |
| Antibody Type          | Primary Antibody                                                                                                              |
| Application Verdünnung | Flow cytometry: 1-2ug/million cells,Immunofluorescence: 1-2ug/ml,Western blot: 1-2ug/ml,Immunohistochemistry (FFPE): 1-2ug/ml |
| Anwendungsbeschreibung | Optimal dilution of the Actin Beta antibody should be determined by the researcher.                                           |
