| Hersteller               | Antibodies Incorporated                                                                                                                                                                                |
| Wirt                     | Mouse                                                                                                                                                                                                  |
| Kategorie                | Antikörper                                                                                                                                                                                             |
| Applikation              | ELISA, ICC, WB                                                                                                                                                                                         |
| Spezies Reaktivität      | Mouse, Rat                                                                                                                                                                                             |
| Immunogen                | Synthetic peptide amino acids 1-16 (MPEASSPR RTPQNV PY, N-terminus) of rat MGL (accession number Q8R431)                                                                                               |
| Konjugation              | Unconjugated                                                                                                                                                                                           |
| Produktbeschreibung      | Our Anti-MGL mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N90/20. It detects mouse and rat MGL, and is TC supernatant. It is great for use in ICC, WB.... |
| Klonalität               | Monoclonal                                                                                                                                                                                             |
| Konzentration            | Lot dependent                                                                                                                                                                                          |
| Klon-Bezeichnung         | [N90/20]                                                                                                                                                                                               |

|                        |                                                                                         |
|------------------------|-----------------------------------------------------------------------------------------|
| Molekulargewicht       | 35 kDa                                                                                  |
| Isotyp                 | IgG2b                                                                                   |
| UniProt                | <a href="#">Q8R431</a>                                                                  |
| Puffer                 | Supernatant is provided in cell culture medium with 0.1% sodium azide as anti-microbial |
| Target-Kategorie       | MGL                                                                                     |
| Antibody Type          | Primary Antibody                                                                        |
| Anwendungsbeschreibung | Format: TC Supernatant                                                                  |
