| Hersteller               | Aviva                                                                                                                                                                                                                                                         |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | WB                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Bovine, Canine, Human, Mouse, Porcine, Rabbit, Rat                                                                                                                                                                                                            |
| Immunogen                | The immunogen is a synthetic peptide directed towards the N terminal region of human SMAD7                                                                                                                                                                    |
| Produktbeschreibung      | Smad7 acts to functionally inactivate RB and de-repress E2F without blocking the activation of TbetaRI and the nuclear translocation of Smad2/3, allowing TGF-beta1 to exert effects in a cancer cell that is resistant to TGF-beta1-mediated growth inhib... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/ml                                                                                                                                                                                                                                                     |
| Molekulargewicht         | 46kDa                                                                                                                                                                                                                                                         |
| NCBI                     | <a href="#">4092</a>                                                                                                                                                                                                                                          |

|              |                                                                                                   |
