| Alternativnummer         | ASB-OAGA05424-100UL                                                                                                                                                                                                                                           |
| Hersteller               | Aviva                                                                                                                                                                                                                                                         |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | ICC, IF, IHC-P, WB                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Human, Mouse                                                                                                                                                                                                                                                  |
| Immunogen                | Recombinant protein encompassing a sequence within the center region of human STAU2. The exact sequence is proprietary.                                                                                                                                       |
| Produktbeschreibung      | Staufen homolog 2 is a member of the family of double-stranded RNA (dsRNA)-binding proteins involved in the transport and/or localization of mRNAs to different subcellular compartments and/or organelles. These proteins are characterized by the presen... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.67 mg/ml                                                                                                                                                                                                                                                    |
| NCBI                     | <a href="#">27067</a>                                                                                                                                                                                                                                         |
| Puffer                   | 0.1M Tris, 0.1M Glycine, 20% Glycerol (pH7). 0.01% Thimerosal was added as a preservative.                                                                                                                                                                    |
