| Alternativnummer         | ASB-OAPB00123-0.1MG                                                                                                                                                               |
| Hersteller               | Aviva                                                                                                                                                                             |
| Wirt                     | Rabbit                                                                                                                                                                            |
| Kategorie                | Proteine/Peptide                                                                                                                                                                  |
| Applikation              | ELISA, ICC, IF, WB                                                                                                                                                                |
| Spezies Reaktivität      | Human, Mouse, Rabbit, Rat                                                                                                                                                         |
| Immunogen                | IKAP antibody was raised against a 16 amino acid synthetic peptide from near the carboxy terminus of human IKAP. The immunogen is located within the last 50 amino acids of IKAP. |
| Konjugation              | Unconjugated                                                                                                                                                                      |
| Produktbeschreibung      | May act as a scaffold protein that may assemble active IKK-MAP3K14 complexes (IKKA, IKKB and MAP3K14/NIK)....                                                                     |
| Klonalität               | Polyclonal                                                                                                                                                                        |
| Konzentration            | 1 mg/ml                                                                                                                                                                           |
| Molekulargewicht         | Predicted: 134, 147 kDa Observed: 105, 145 kDa                                                                                                                                    |
| NCBI                     | <a href="#">8518</a>                                                                                                                                                              |

|              |                                                                         |
|--------------|-------------------------------------------------------------------------|
| Formulierung | Liquid. IKAP Antibody is supplied in PBS containing 0.02% sodium azide. |
