| Alternativnummer         | ASB-OAPB00287-0.1MG                                                                                                                                                                                                                                           |
| Hersteller               | Aviva                                                                                                                                                                                                                                                         |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | ELISA, IF, IHC-P, WB                                                                                                                                                                                                                                          |
| Spezies Reaktivität      | Equine, Human, Porcine                                                                                                                                                                                                                                        |
| Immunogen                | Caspase-1 antibody was raised against a 15 amino acid synthetic peptide from near the middle of human Caspase-1. The immunogen is located within amino acids 200 - 250 of Caspase-1.                                                                          |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Thiol protease that cleaves IL-1 beta between an Asp and an Ala, releasing the mature cytokine which is involved in a variety of inflammatory processes. Important for defense against pathogens. Cleaves and activates sterol regulatory element binding ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                       |
| NCBI                     | <a href="#">834</a>                                                                                                                                                                                                                                           |

|              |                                                                              |
