| Hersteller               | Vector Biolabs                                                                                                                                                                                                                                                |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | Several protein tyrosine kinases have been identified within the Src gene family. On the basis of their associations with specific cell surface receptors, Src gene family members play critical roles in various signal transduction pathways. The highes... |
| Konzentration            | 1x10 <sup>10</sup> PFU/ml                                                                                                                                                                                                                                     |
| Puffer                   | DMEM, 2% BSA, 2.5% Glycerol                                                                                                                                                                                                                                   |
