| Hersteller               | Vector Biolabs                                                                                                                                                                                                                                        |
| Kategorie                | Sonstiges                                                                                                                                                                                                                                             |
| Produktbeschreibung      | The adiponectin receptors, ADIPOR1 and ADIPOR2, serve as receptors for globular and full-length adiponectin and mediate increased AMPK and PPAR-alpha (PPARA) ligand activities, as well as fatty acid oxidation and glucose uptake by adiponectin... |
| Konzentration            | 1x10 <sup>10</sup> PFU/ml                                                                                                                                                                                                                             |
| Puffer                   | DMEM, 2% BSA, 2.5% Glycerol                                                                                                                                                                                                                           |
