Mouse Hepatocyte growth factor activator (HGFAC) ELISA Kit ASC-KTE71484

Artikelname	Mouse Hepatocyte growth factor activator (HGFAC) ELISA Kit
Artikelnummer	ASC-KTE71484
Hersteller Artikelnummer	KTE71484
Alternativnummer	ASC-KTE71484-48, ASC-KTE71484-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Mouse
Produktbeschreibung	This Mouse Hepatocyte growth factor activator (HGFAC) ELISA Kit employs a two-site sandwich ELISA to quantitate HGFAC....
Detektionsbereich	Please inquire
Sensitivitaet	Please inquire
Tag	HGFAC
NCBI	54426
UniProt	Q9R098
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung	This Mouse Hepatocyte growth factor activator (HGFAC) ELISA Kit employs a two-site sandwich ELISA to quantitate HGFAC in samples. An antibody specific for HGFAC has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any HGFAC present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for HGFAC is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of HGFAC bound in the initial step. The color development is stopped and the intensity of the color is measured.
