| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                   |
| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Guinea pig                                                                                                                                                                                                                                                    |
| Produktbeschreibung      | This Guinea pig Regulated On Activation In Normal T-Cell Expressed And Secreted (RANTES) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in serum, plasma, tissue homogenates, cell culture supernatants... |
| Detektionsbereich        | 0.156-10ng/mL                                                                                                                                                                                                                                                 |
| Sensitivitaet            | 0.059ng/mL                                                                                                                                                                                                                                                    |
| Proben                   | serum, plasma, tissue homogenates, cell culture supernatants and other biological fluids                                                                                                                                                                      |
| Target-Kategorie         | Guinea pig Regulated On Activation In Normal T-Cell Expressed And Secreted (RANTES)                                                                                                                                                                           |
| Anwendungsbeschreibung   | Assay Length: 4.5 hours. Experimental Method: Sandwich                                                                                                                                                                                                        |
