| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                   |
| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Rat                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | This Rat Somatostatin (SST) ELISA Kit is a precoated, Competitive Inhibition ELISA assay designed to detect and quantify the target analyte in serum, plasma, tissue homogenates, cell lysates, cell culture supernatants and other biological fluids . Th... |
| Detektionsbereich        | 7.81-500pg/mL                                                                                                                                                                                                                                                 |
| Sensitivitaet            | 2.16pg/mL                                                                                                                                                                                                                                                     |
| Proben                   | serum, plasma, tissue homogenates, cell lysates, cell culture supernatants and other biological fluids                                                                                                                                                        |
| Target-Kategorie         | Rat Somatostatin (SST)                                                                                                                                                                                                                                        |
| Anwendungsbeschreibung   | Assay Length: 3 hours. Experimental Method: Competitive Inhibition                                                                                                                                                                                            |
