| Hersteller               | reddot Biotech                                                                                                                                                                                                                                                |
| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                   |
| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Canine                                                                                                                                                                                                                                                        |
| Produktbeschreibung      | This Canine Transforming Growth Factor Beta 1 (TGFb1) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in serum, platelet-poor plasma, tissue homogenates, cell culture supernatants and other biological... |
| Detektionsbereich        | 15.6-1000pg/mL                                                                                                                                                                                                                                                |
| Sensitivitaet            | 5.6pg/mL                                                                                                                                                                                                                                                      |
| Proben                   | serum, platelet-poor plasma, tissue homogenates, cell culture supernatants and other biological fluids                                                                                                                                                        |
| Target-Kategorie         | Canine Transforming Growth Factor Beta 1 (TGFb1)                                                                                                                                                                                                              |
| Anwendungsbeschreibung   | Assay Length: 3 hours. Experimental Method: Sandwich                                                                                                                                                                                                          |
