| Hersteller               | reddot Biotech                                                                                                                                                                                                                                                |
| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                   |
| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Porcine                                                                                                                                                                                                                                                       |
| Produktbeschreibung      | This Porcine Tumor Necrosis Factor Alpha (TNFa) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in serum, plasma, tissue homogenates, cell lysates, cell culture supernatants and other biological fluid... |
| Detektionsbereich        | 62.5-4000pg/mL                                                                                                                                                                                                                                                |
| Sensitivitaet            | 27.8pg/mL                                                                                                                                                                                                                                                     |
| Proben                   | serum, plasma, tissue homogenates, cell lysates, cell culture supernatants and other biological fluids                                                                                                                                                        |
| Target-Kategorie         | Porcine Tumor Necrosis Factor Alpha (TNFa)                                                                                                                                                                                                                    |
| Anwendungsbeschreibung   | Assay Length: 3 hours. Experimental Method: Sandwich                                                                                                                                                                                                          |
