| Alternativnummer         | USB-B0003-67EX-25                                                                                                                                                                                                                                             |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Applikation              | ELISA, FC                                                                                                                                                                                                                                                     |
| Produktbeschreibung      | The human B cell activating factor (BAFF) and APRIL(a proliferation inducing ligand) are both type II molecules belonging to the TNF superfamily (TNFSFL 13b and 13 respectively). They are expressed by non-B cells, and are down regulated by mitogenic ... |
| Molekulargewicht         | 38.5                                                                                                                                                                                                                                                          |
| NCBI                     | <a href="#">006564</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified by affinity chromatography.                                                                                                                                                                                                                          |
| Formulierung             | Supplied as a liquid in 50mM Sodium Phosphate pH 7.5, 100mM Potassium Chloride, 150mM NaCl.                                                                                                                                                                   |
