## Product Datasheet

### **CD50 (CDw50, CDW50, ICAM-3, ICAM-R, Intercellular adhesion molecule 3), IgG2b, Clone: [186-2G9], Mouse, Monoclonal USB-C2405-05S**

|                          |                                                                                                                                                                                                                                                               |

| Alternativnummer         | USB-C2405-05S-100                                                                                                                                                                                                                                             |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FC, IHC                                                                                                                                                                                                                                                       |
| Immunogen                | Stimulated human leukocytes                                                                                                                                                                                                                                   |
| Produktbeschreibung      | Human CD50 is an adhesion molecule that interacts with LFA-1 (CD18/CD11a) and provides a costimulatory signal for T cells (1, 2, 3) which is thought to be essential for initiation of immune responses. Recognizes the D1 domain of the ICAM-3 molecule o... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [186-2G9]                                                                                                                                                                                                                                                     |
| Isotyp                   | IgG2b                                                                                                                                                                                                                                                         |
| Reinheit                 | Purified by Protein A affinity chromatography.                                                                                                                                                                                                                |

|              |                                                                                                         |
|--------------|---------------------------------------------------------------------------------------------------------|
| Formulierung | Supplied as a liquid in 50mM sodium phosphate, pH 7.5, 100mM potassium chloride, 150mM sodium chloride. |
