## Product Datasheet

### **CD54 (ICAM-1, Intercellular Adhesion Molecule 1, Human Rhinovirus Receptor, Precursor, BB2, Major Group Rhinovirus Receptor, P3.58) (MaxLight 650), IgG1, Clone: [84H10], Mouse, Monoclonal USB-C2409-14-ML650**

|                          |                                                                                                                                                                                                                                                               |

| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FC, IHC, IP                                                                                                                                                                                                                                                   |
| Immunogen                | K562 cell line.                                                                                                                                                                                                                                               |
| Produktbeschreibung      | MaxLight(TM)650 is a new Far-IR stable dye conjugate comparable to Alexa Fluor(TM)647, DyLight(TM)649, Cy5(TM) and offers better labeling efficiency, brighter imaging and increased immunodetection. Absorbance (655nm), Emission (676nm), Extinction Coe... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [84H10]                                                                                                                                                                                                                                                       |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                          |

|              |                                                                    |
|--------------|--------------------------------------------------------------------|
| UniProt      | <a href="#">P05362</a>                                             |
| Reinheit     | Purified by Protein A affinity chromatography.                     |
| Formulierung | Supplied as a liquid in PBS, pH 7.2. Labeled with MaxLight(TM)650. |
