| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Produktbeschreibung      | BioGenomics(TM) Tissue cDNA: cDNA is supplied as First Strand, Multiple Tissue Panels, and Matched Pairs. PCR-ready First Strand cDNA is tissue specific and are ready-to-use for gene discovery or expression analysis. Over 350 cDNAs from human adult a... |
| Formulierung             | Supplied as a liquid in 50mM Tris-Cl, pH 8.3, 75mM potassium chloride, 3mM MgCl <sub>2</sub> , 10mM DTT.                                                                                                                                                      |
