| Alternativnummer         | USB-T8051-12A-BIOTIN-100                                                                                                                                                                                                                                      |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                       |
| Immunogen                | Synthetic peptide corresponding to a 15 aa sequence near the carboxy terminus of mouse TLR11.                                                                                                                                                                 |
| Produktbeschreibung      | TLR11 is principally expressed in macrophages and liver, and epithelial cells of the kidney and bladder. Mouse TLR11 is reported to recognise uropathogenic bacteria, and to activate appropriate host defense genes as part of the innate immune response... |
| Reinheit                 | Purified by Ion Exchange chromatography.                                                                                                                                                                                                                      |
| Formulierung             | Supplied as a liquid in PBS, pH 7.2. Labeled with Biotin.                                                                                                                                                                                                     |
