| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FLISA                                                                                                                                                                                                                                                         |
| Immunogen                | Purified transferrin isolated from pooled swine serum.                                                                                                                                                                                                        |
| Produktbeschreibung      | Applications: Suitable for use in FLISA, Western Blot, Immunohistochemistry and Immunocytochemistry. Other applications not tested. Recommended Dilutions: FLISA: 1:1000-1:5000 Immunocytochemistry: 1:100-1:500 Immunohistochemistry: 1:100-1:500 Optimal... |
| Reinheit                 | Purified by DEAE chromatography.                                                                                                                                                                                                                              |
| Formulierung             | Supplied as a lyophilized powder in PBS, pH 7.2. Preservative free. Reconstitute with 1ml sterile dH2O. Labeled with FITC.                                                                                                                                    |
