| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FLISA                                                                                                                                                                                                                                                         |
| Immunogen                | Purified human transferrin                                                                                                                                                                                                                                    |
| Produktbeschreibung      | Transferrin has an important role in transporting iron from the intestine, reticuloendothelial system and liver parenchymal cells to all proliferating cells in the body. Applications: Suitable for use in FLISA. Other applications not tested. Recommen... |
| UniProt                  | <a href="#">P02787</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified by affinity chromatography.                                                                                                                                                                                                                          |
| Formulierung             | Supplied as a liquid in PBS, pH 7.2. Labeled with R-Phycoerythrin (PE).                                                                                                                                                                                       |
