| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                     |
| Immunogen                | Transferrin Receptor, Soluble, Human from human placenta                                                                                                                                                                                                      |
| Produktbeschreibung      | The transferrin receptor (TfR) is the gateway for transferrin-bound-iron entering all body cells. TfR is abundant on the surface of many newly formed cells, but the erythroid narrow cells account for 70 to 80% of the total body TfR content. The solub... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [2VB3]                                                                                                                                                                                                                                                        |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                          |
| Reinheit                 | Purified by Protein G affinity chromatography.                                                                                                                                                                                                                |

|              |                                                                                           |
|--------------|-------------------------------------------------------------------------------------------|
| Formulierung | Supplied as a lyophilized powder from PBS, pH 7.2. Reconstitute with 100ul sterile ddH2O. |
