## Product Datasheet

**Troponin I, Cardiac (cTnI), IgG2b, Clone: [19C7], Mouse, Monoclonal  
USB-T8665-19B**

|                          |                                                                                                                                                                                                                                                               |

| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, IHC, IP, WB                                                                                                                                                                                                                                            |
| Immunogen                | Free human cTnI, native human cTn complex, or human cTnI peptides.                                                                                                                                                                                            |
| Produktbeschreibung      | Applications: Suitable for use in ELISA, Western Blot, Immunoprecipitation and Immunohistochemistry. Other applications not tested. Recommended Dilution: Optimal dilutions to be determined by the researcher. Matched Pairs: Capture: T8665-16L Detectio... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [19C7]                                                                                                                                                                                                                                                        |
| Isotyp                   | IgG2b                                                                                                                                                                                                                                                         |
| Reinheit                 | Purified by Protein A affinity chromatography.                                                                                                                                                                                                                |
| Formulierung             | Supplied as a liquid in PBS, pH 7.4, 0.09% sodium azide.                                                                                                                                                                                                      |
