## Product Datasheet

**TWIST1 (Twist Homolog 1 (Drosophila), ACS3, bHLHa38, BPES2, BPES3, H-twist, SCS, Twist-related Protein 1), IgG1, Clone: [8C345], Mouse, Monoclonal  
USB-T9300-02**

|                          |                                                                                                                                                                                                                                                               |

| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Immunogen                | Partial recombinant sequence from the C-terminal region of human TWIST1.                                                                                                                                                                                      |
| Produktbeschreibung      | Basic helix-loop-helix (bHLH) transcription factors have been implicated in cell lineage determination and differentiation. The protein encoded by this gene is a bHLH transcription factor and shares similarity with another bHLH transcription factor, ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [8C345]                                                                                                                                                                                                                                                       |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                          |
| NCBI                     | <a href="#">000474</a>                                                                                                                                                                                                                                        |

|              |                                                                                  |
|--------------|----------------------------------------------------------------------------------|
| Reinheit     | Purified by Protein G affinity chromatography from hybridoma culture supernatant |
| Formulierung | Supplied as a liquid in PBS, pH 7.4, 1% BSA, 0.05% sodium azide.                 |
