| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | WB                                                                                                                                                                                                                                                            |
| Immunogen                | Synthetic peptide derived from an internal region of the human, mouse, rat and golden hamster Ubc9 proteins.                                                                                                                                                  |
| Produktbeschreibung      | Ubiquitin-conjugating enzyme 9 (Ubc9)1-3 is a component of the ubiquitin-mediated proteolytic SUMO (sentrin) pathway that targets proteins for degradation by the 26S proteasome, mediates endocytosis and directs protein subcellular localization.4,5 Ub... |
| Reinheit                 | Epitope-affinity purified from rabbit antiserum.                                                                                                                                                                                                              |
| Formulierung             | Supplied as a liquid in PBS, pH 7.2. No preservatives added. Labeled with horseradish peroxidase (HRP).                                                                                                                                                       |
