| Alternativnummer         | USB-V2130-21B-100                                                                                                                                                                                                                                             |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Goat                                                                                                                                                                                                                                                          |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                     |
| Immunogen                | Synthetic peptide corresponding to ERGRDYEKNKVCK, from the internal region (near the N-Terminus) of human Vitamin D Binding Protein. (NP_000574.2).                                                                                                           |
| Produktbeschreibung      | The vitamin D binding protein (DBP) is a multifunctional plasma protein that can modulate certain immune and inflammatory responses. The diverse cellular functions of DBP appear to require cell surface binding to mediate these processes. Numerous rep... |
| NCBI                     | <a href="#">000574</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified by peptide affinity chromatography.                                                                                                                                                                                                                  |
| Formulierung             | Supplied as a liquid in Tris saline, pH 7.3, 0.5% BSA, 0.02% sodium azide.                                                                                                                                                                                    |
