| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Human, Mouse                                                                                                                                                                                                                                                  |
| Immunogen                | A partial length recombinant RANK protein (amino acids 200-427) was used as the immunogen for this antibody.                                                                                                                                                  |
| Produktbeschreibung      | CD265 or RANK, a member of the TNFR family, is the receptor for TNFSF11 or RANKL. RANK is associated with bone repair, lymph node development and thermal regulation. RANK and its ligand are important for the regulation of interactions between T-cells... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [ABM10D5]                                                                                                                                                                                                                                                     |
