| Immunogen                | Intact CD47 Purified from placenta                                                                                                                                                                                                                            |
| Produktbeschreibung      | This antibody reacts with Ig domain of CD47 protein. It has been shown to inhibit polymorphonuclear neutrophil (PMN) transmigration across cell monolayers and matrix. CD47, originally named integrin-associated protein (IAP), is a 50kDa protein contai... |
