| Wirt                     | Mouse                                                                                                                                                                                                                                                                           |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                                      |
| Applikation              | ELISA, FACS, IF                                                                                                                                                                                                                                                                 |
| Immunogen                | Total sonicate of Helicobacter pylori                                                                                                                                                                                                                                           |
| Produktbeschreibung      | The spiral shaped bacterium <i>Helicobacter pylori</i> is strongly associated with inflammation of the stomach and is also implicated in the development of gastric malignancy. <i>H. pylori</i> is known to cause peptic ulcers and chronic gastritis in human. It is assoc... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                                      |
| Klon-Bezeichnung         | [HP/1335]                                                                                                                                                                                                                                                                       |
| Application Verdünnung   | ELISA (For coating use Ab at 1-5ug/ml, order Ab without BSA), Flow Cytometry (1-2ug/million cells), Immunofluorescence (1-2ug/ml),                                                                                                                                              |
