| Hersteller               | KactusBio                                                                                                                                                                                                      |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                               |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                              |
| Produktbeschreibung      | Recombinant Human/Mouse/Rat Activin A Protein is expressed from HEK293 without tag.It contains Gly311-Ser426....                                                                                               |
| Molekulargewicht         | The protein has a predicted MW of 12.97 kDa. Due to glycosylation, the protein migrates to 14-15 kDa under reduced (R) condition, and 23-30 kDa under Non reduced (N) condition based on Bis-Tris PAGE result. |
| Tag                      | No Tag                                                                                                                                                                                                         |
| UniProt                  | <a href="#">P08476</a>                                                                                                                                                                                         |
| Puffer                   | Lyophilized from 0.22µm filtered solution in 4mM HCl. Normally 8% trehalose is added as protectant before lyophilization.                                                                                      |
| Expression System        | HEK293                                                                                                                                                                                                         |
| Reinheit                 | > 95% as determined by Bis-Tris PAGE                                                                                                                                                                           |
| Formulierung             | Lyophilized                                                                                                                                                                                                    |
