## Product Datasheet

### **Biotinylated Human BCMA/TNFRSF17 Protein (BCM-HM117B) KAB-BCM-HM117B**

|                          |                                                                                                                                                      |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | Biotinylated Human BCMA/TNFRSF17 Protein (BCM-HM117B)                                                                                                |
| Artikelnummer            | KAB-BCM-HM117B                                                                                                                                       |
| Hersteller Artikelnummer | BCM-HM117B                                                                                                                                           |
| Alternativnummer         | KAB-BCM-HM117B-100UG, KAB-BCM-HM117B-500UG                                                                                                           |
| Hersteller               | KactusBio                                                                                                                                            |
| Kategorie                | Proteine/Peptide                                                                                                                                     |
| Spezies Reaktivität      | Human                                                                                                                                                |
| Konjugation              | Biotin                                                                                                                                               |
| Produktbeschreibung      | Recombinant Biotinylated Human BCMA/TNFRSF17 Protein is expressed from HEK293 with His tag and Avi tag at the C-Terminus. It contains Met1-Ala54.... |
| Molekulargewicht         | The protein has a predicted MW of 8.9 kDa. Due to glycosylation, the protein migrates to 12 kDa and 15-17 kDa based on Bis-Tris PAGE result.         |
| Tag                      | C-His-Avi                                                                                                                                            |
| UniProt                  | <a href="#">Q02223</a>                                                                                                                               |
| Puffer                   | Lyophilized from 0.22µm filtered solution in PBS (pH 7.4). Normally 8% trehalose is added as protectant before lyophilization.                       |
| Expression System        | HEK293                                                                                                                                               |
| Reinheit                 | > 95% as determined by Bis-Tris PAGE                                                                                                                 |

|                  |               |
|------------------|---------------|
| Formulierung     | Lyophilized   |
| Sequenz          | Met1-Ala54    |
| Target-Kategorie | BCMA/TNFRSF17 |
