| Artikelname              | Human B7-H6/NCR3LG1 Protein, Ultra Low Endotoxin (BH7-HM176-UL)                                                                    |
| Artikelnummer            | KAB-BH7-HM176-UL                                                                                                                   |
| Hersteller Artikelnummer | BH7-HM176-UL                                                                                                                       |
| Alternativnummer         | KAB-BH7-HM176-UL-100UG, KAB-BH7-HM176-UL-500UG                                                                                     |
| Hersteller               | KactusBio                                                                                                                          |
| Kategorie                | Proteine/Peptide                                                                                                                   |
| Spezies Reaktivität      | Human                                                                                                                              |
| Produktbeschreibung      | Recombinant Human B7-H6/NCR3LG1 Protein is expressed from HEK293 with His tag at the C-Terminus.It contains Asp25-Ser262....       |
| Molekulargewicht         | The protein has a predicted MW of 27.8 kDa. Due to glycosylation, the protein migrates to 50-68 kDa based on Bis-Tris PAGE result. |
| Tag                      | C-His                                                                                                                              |
| UniProt                  | <a href="#">Q68D85</a>                                                                                                             |
| Puffer                   | Lyophilized from 0.22µm filtered solution in PBS (pH 7.4). Normally 8% trehalose is added as protectant before lyophilization.     |
| Expression System        | HEK293                                                                                                                             |
| Reinheit                 | > 95% as determined by Bis-Tris PAGE,> 95% as determined by HPLC                                                                   |
| Formulierung             | Lyophilized                                                                                                                        |

|                  |               |
|------------------|---------------|
| Sequenz          | Asp25-Ser262  |
| Target-Kategorie | B7-H6/NCR3LG1 |
