## Product Datasheet

### IL-6 Rabbit mAb, Unconjugated, Monoclonal ABB-A27228

|                          |                                                                                                |
|--------------------------|------------------------------------------------------------------------------------------------|
| Artikelname              | IL-6 Rabbit mAb, Unconjugated, Monoclonal                                                      |
| Artikelnummer            | ABB-A27228                                                                                     |
| Hersteller Artikelnummer | A27228                                                                                         |
| Alternativnummer         | ABB-A27228-500UL, ABB-A27228-20UL, ABB-A27228-1000UL, ABB-A27228-100UL                         |
| Hersteller               | ABclonal                                                                                       |
| Wirt                     | Rabbit                                                                                         |
| Kategorie                | Antikörper                                                                                     |
| Applikation              | ELISA, WB                                                                                      |
| Spezies Reaktivität      | Mouse                                                                                          |
| Immunogen                | Recombinant protein (or fragment).This information is considered to be commercially sensitive. |
| Konjugation              | Unconjugated                                                                                   |
| Klonalität               | Monoclonal                                                                                     |
| Molekulargewicht         | 24 kDa                                                                                         |
| NCBI                     | <a href="#">16193</a>                                                                          |
| UniProt                  | <a href="#">P05231</a>                                                                         |
| Reinheit                 | Affinity purification                                                                          |

|                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | WB,1:2000 - 1:5000 ELISA,Recommended starting concentration is 1 µg/mL. Please optimize the concentration based on your specific assay requirements.                                                                                                                                                                                                                                                                                                                                                             |
| Anwendungsbeschreibung | Cross-Reactivity: Mouse. ResearchArea: Cancer,Tumor immunology,Invasion and Metastasis,Cell Biology Developmental Biology,Apoptosis,Growth factors,Endocrine Metabolism,Endocrine and metabolic diseases,Obesity,Immunology Inflammation,Cytokines,Interleukins,Jak-Stat-IL-6 Receptor Signaling Pathway,Cell Intrinsic Innate Immunity Signaling Pathway,Neuroscience,Neurodegenerative Diseases,Neurodegenerative Diseases Markers,Other Neurological disorders,Cardiovascular,Angiogenesis. Shipping: Ice Bag |
