## Product Datasheet

### Taste Receptor 1 (TR1) (Not for Export EU), Rabbit USB-T1024-01C

|                          |   |
|--------------------------|---|
| Artikelname              | Taste Receptor 1 (TR1) (Not for Export EU), Rabbit  |
| Artikelnummer            | USB-T1024-01C   |
| Hersteller Artikelnummer | T1024-01C   |
| Alternativnummer         | USB-T1024-01C-100   |
| Hersteller               | US Biological   |
| Wirt                     | Rabbit  |
| Kategorie                | Antikörper  |
| Applikation              | ELISA   |
| Immunogen                | KLH-conjugated 24-amino acid peptide sequence near the C-terminus of rat TR1. This sequence has no significant homology with TRS or gustducin or pheromone receptors. Species sequence homology: mouse (100%), human (87%).                                   |
| Produktbeschreibung      | Higher vertebrates are believed to possess at least five basic tastes: Sweet, bitter, sour, salty, and unami (the taste of monosodium glutamate). Taste receptor cells selectively reside in various parts of the tongue and respond to different tastants... |
| Reinheit                 | Serum   |
| Formulierung             | Supplied as lyophilized antiserum containing 0.05% sodium azide. Reconstitute with 100ul sterile PBS.   |
