| Hersteller               | EXBIO                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ICC, IHC-P, IP, WB                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Bovine, Human, Porcine                                                                                                                                                                                                                                        |
| Immunogen                | Cytoskeleton preparation of HeLa human cervix carcinoma cell line.                                                                                                                                                                                            |
| Produktbeschreibung      | Cytokeratins are a subfamily of intermediate filaments and are characterized by remarkable biochemical diversity. They are represented in epithelial tissues by at least 20 different polypeptides, molecular weight between 40 kDa and 68 kDa. The indivi... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                       |
| Klon-Bezeichnung         | [C-46]                                                                                                                                                                                                                                                        |
| Isotyp                   | Mouse IgG1                                                                                                                                                                                                                                                    |
| Puffer                   | Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                                                                   |

|                        |                                                                                                                                                                                                                                                                       |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Lagerung               | 2°C to 8°C                                                                                                                                                                                                                                                            |
| Target-Kategorie       | Cytokeratin 7/17                                                                                                                                                                                                                                                      |
| Antibody Type          | Monoclonal Antibody                                                                                                                                                                                                                                                   |
| Anwendungsbeschreibung | Immunohistochemistry (paraffin sections): Recommended dilution: 10 µg/ml, pretreatment: 0,1% pepsin, 30 min, 37C, incubation 4C overnight, chromogen DAB, positive tissue: pancreas. Western blotting: Recommended dilution: 1-2 µg/ml, positive control: HeLa cells. |
