| Immunogen                | Human platelets                                                                                                                                                                                                                                               |
| Konjugation              | PE/Cy5                                                                                                                                                                                                                                                        |
| Produktbeschreibung      | CD62P (P-selectin) is an adhesion glycoprotein that is expressed on platelets and endothelial cells upon their activation. Interaction between CD62P and its mucin-like ligand PSGL-1 (P-selectin glycoprotein ligand-1) expressed on the microvilli of mo... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [AK4]                                                                                                                                                                                                                                                         |
| Isotyp                   | Mouse IgG1 kappa                                                                                                                                                                                                                                              |
| Puffer                   | Stabilizing phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                                                       |

|                        |                                                                                                                                                                                                                            |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Lagerung               | 2°C to 8°C                                                                                                                                                                                                                 |
| Target-Kategorie       | CD62P                                                                                                                                                                                                                      |
| Antibody Type          | Monoclonal Antibody                                                                                                                                                                                                        |
| Application Verdünnung | Flow cytometry: The reagent is designed for analysis of human blood cells using 4 µl reagent / 100 µl of whole blood or 10 <sup>6</sup> cells in a suspension. The content of a vial (0.4 ml) is sufficient for 100 tests. |
