Anti-VTG | Sole vitellogenin, Rabbit, Polyclonal AGR-AS06-127

Artikelname	Anti-VTG Sole vitellogenin, Rabbit, Polyclonal
Artikelnummer	AGR-AS06-127
Hersteller Artikelnummer	AS06-127
Alternativnummer	AGR-AS06-127
Hersteller	Agrisera
Wirt	Rabbit
Kategorie	Antikörper
Applikation	ELISA, WB
Spezies Reaktivität	Fish
Immunogen	Native vitellogenin purified from plasma of estradiol induced male of Senegalese sole (<i>Solea senegalensis</i>)
Produktbeschreibung	Vitellogen (VTG) is a glucolipoprotein yolk precursor produced by all oviparous animals. This protein is female-specific and its expression is under hormonal control (estrogen). However, in the presence of Endocrine Disrupting Chemicals (EDCs), males...
Klonalität	Polyclonal
Molekulargewicht	ca. 200 kDa
Reinheit	Serum
Formulierung	Lyophilized

Antibody Type	Polyclonal Antibody
Application Verdünnung	1 : 5 000 on sole serum (ELISA), 1 : 5 000 (WB)
Anwendungsbeschreibung	The developed VTG ELISA, using these VTG and AbVTG, has been validated for Senegalese sole, sea bass (<i>Dicentrarchus labrax</i>) and seabream (<i>Sparus aurata</i>), which all gave parallel displacement curves in the assay. Probably, plasmas from several other fish species displace parallel and can also be used in the assay, although it has to be validated for each case.
