| Kategorie                | Antikörper                                                                                                                                                                                                                                                             |
| Applikation              | WB                                                                                                                                                                                                                                                                     |
| Spezies Reaktivität      | A. thaliana, Plant                                                                                                                                                                                                                                                     |
| Immunogen                | KLH-conjugated peptide derived from Arabidopsis thaliana PGRL1A<br>UniProt: Q8H112, TAIR: At4g22890Peptide used to elicit this antibody<br>is conserved in both isoforms PGRL1A and 1B of Zea mays                                                                     |
| Produktbeschreibung      | PGRL1 is a transmembrane protein present in thylakoids of higher<br>plants and algae. Arabidopsis plants lacking PGRL1 show<br>perturbation of cyclic electron transport (CEF) around photosystem I<br>(PSI), similar to PGR5-deficient plants. PGRL1 has been show... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                             |
| Molekulargewicht         | 29   29 kDa (Arabidopsis thaliana, Spinacia oleracea)                                                                                                                                                                                                                  |
| NCBI                     | <a href="#">828388</a>                                                                                                                                                                                                                                                 |
| UniProt                  | <a href="#">Q8H112</a>                                                                                                                                                                                                                                                 |

|                        |                                                          |
|------------------------|----------------------------------------------------------|
| Reinheit               | Immunogen affinity purified serum in PBS pH 7.4.         |
| Formulierung           | Lyophilized                                              |
| Antibody Type          | Polyclonal Antibody                                      |
| Application Verdünnung | 1 : 1000 (WB)                                            |
| Anwendungsbeschreibung | This product can be sold containing ProClin if requested |
