| Alternative Catalog Number | ROC-200-401-193                                                                                                                                      |
| Manufacturer               | Rockland Immunochemicals                                                                                                                             |
| Host                       | Rabbit                                                                                                                                               |
| Category                   | Antikörper                                                                                                                                           |
| Application                | ELISA, WB                                                                                                                                            |
| Species Reactivity         | Human                                                                                                                                                |
| Immunogen                  | RFX5 (N-terminal specific) peptide corresponding to a region near the N-terminus of the human protein conjugated to Keyhole Limpet Hemocyanin (KLH). |
| Conjugation                | Unconjugated                                                                                                                                         |
| Clonality                  | Polyclonal                                                                                                                                           |
| Concentration              | 1.0 mg/mL by UV absorbance at 280 nm                                                                                                                 |
| NCBI                       | <a href="#">5993</a>                                                                                                                                 |
| UniProt                    | <a href="#">P48382</a>                                                                                                                               |
| Buffer                     | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                                                                           |
| Form                       | Liquid (sterile filtered)                                                                                                                            |

|                    |                                                                                                                                                                                                                                                                |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target             | Human                                                                                                                                                                                                                                                          |
| Antibody Type      | Primary Antibody                                                                                                                                                                                                                                               |
| Application Dilute | ELISA: 1:5,000 - 1:25,000, Gel Shift: 0.5 to 1.0 µl, WB: 1:500 - 1:3,000                                                                                                                                                                                       |
| Application Notes  | This product was assayed by immunoblot and found to be reactive against RFX5 (N-terminal specific) from a variety of fibroblast and B-cell lysates at a dilution of 1:500 followed by reaction with Peroxidase conjugated Affinity Purified anti-Rabbit IgG [H |
