| Immunogen                  | Recombinant human full-length T8 (CD8a) protein                                                                                                                                                                                                                |
| Product Description        | This Mab is specific for the 32kDa alpha chain of human CD8, known as CD8a or CD8 alpha. CD8 is a cell surface receptor expressed either as a heterodimer with the CD8 beta chain (CD8 alpha/beta) or as a homodimer (CD8 alpha/alpha). A majority of thymo... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                     |
