| Immunogen                  | Bromodeoxyuridine (BrdU) conjugated to KLH                                                                                                                                                                                                                    |
| Product Description        | It reacts with Bromodeoxyuridine (BrdU) in single stranded DNA (produced by partial denaturation of double stranded DNA), BrdU coupled to a protein carrier, as well as free BrdU. BrdU is a thymidine analog, incorporated into cell nuclei during DNA sy... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
