| Category                   | Biochemikalien                                                                                                                                                                                                                                                |
| Product Description        | This azide modified nucleotide closely resembles a natural nucleotide and enables the possibility of chemoenzymatic labeling to mRNA or ssDNA. Due to the small size of the azide group, 3'-Azido-2',3'-ddATP is well accepted by T7 RNA polymerase, poly(... |
| Concentration              | 100 mM                                                                                                                                                                                                                                                        |
| Molecular Weight           | 516.19 g/mol                                                                                                                                                                                                                                                  |
| Purity                     | 98% (HPLC)                                                                                                                                                                                                                                                    |
| Form                       | Liquid                                                                                                                                                                                                                                                        |
| CAS Number                 | [1383937-03-8 sodium salt]                                                                                                                                                                                                                                    |
| Formula                    | C10H15N8O11P3                                                                                                                                                                                                                                                 |
| Application Notes          | Triphosphate for modifying of 3END RNA or ssDNA                                                                                                                                                                                                               |
