| Product Description        | Mouse IgG2a (isotype control)-Alexa Fluor 488, Clone: [6H3], Monoclonal... |
| Clonality                  | Monoclonal                                                                 |
| Concentration              | 1 mg/mL                                                                    |
| Clone Designation          | [6H3]                                                                      |
| Isotype                    | IgG2a kappa                                                                |
| NCBI                       | <a href="#">10004671</a>                                                   |
| Buffer                     | 1 mg/mL in PBS/1% BSA/0.1% ProClin 150                                     |

|                    |                                                                                                                                                                                                                  |
|--------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Source             | This antibody was purified from hybridoma (clone 6H3) supernatant using protein A agarose. This hybridoma was established by fusion of mouse myeloma cell P3U1 with Balb/c mouse lymph nodes immunized with KLH. |
| Target             | IgG2a                                                                                                                                                                                                            |
| Application Dilute | FCM: This antibody can be used as a negative isotypic control. The concentration will depend on condition.                                                                                                       |
