| Product Description        | Reacts with a 75 kDa melanocyte-specific gene product, identified as Tyrosinase-related protein-1 (TRP-1). It is involved in melanin synthesis. TRP1 is present on the melanosomal membranes of melanoma, normal melanocytes and nevi. Recent evidence sug... |
| Concentration              | 0.1 mg/mL                                                                                                                                                                                                                                                     |
