| Immunogen                  | Recombinant full-length human IGHM protein                                                                                                                                                                                                                    |
| Conjugation                | Biotin                                                                                                                                                                                                                                                        |
| Product Description        | Recognizes a protein of 75 kDa, identified as mu heavy chain of human immunoglobulins. It does not cross-react with alpha (IgA), gamma (IgG), epsilon (IgE), or delta (IgD), heavy chains, T-cells, monocytes, granulocytes, or erythrocytes. This MAb is ... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 0.1 mg/mL                                                                                                                                                                                                                                                     |
| Clone Designation          | [rIM260]                                                                                                                                                                                                                                                      |
