| Immunogen                  | Recombinant full length human WT1 protein (WT1/857),<br>Recombinant fragment aa1-181 of human WT1 (6F-H2)                                                                                                                                                     |
| Product Description        | Recognizes a 47-55 kDa-tumor suppressor protein, identified as Wilms Tumor (WT1) protein. The antibody reacts with all isoforms of the full-length WT1 and also identifies WT1 lacking exon 2-encoded amino acids, frequently found in subsets of sporadic... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 0.2 mg/mL                                                                                                                                                                                                                                                     |
